dcay@vsnl.net, deprived@deprivedchild.org, dcay@mtnl.net.in

The Organization have established SNEHA CHILD DEVELOPMENT CENTRE at Sakinaka, Mumbai , for deprived ,under-privileged and slum children in the locality with an intention of taking care by rendering services for the comprehensive development of these children .The centre have been providing the medical support with periodical checkups , nutrition /foods ,as well as all educational inputs for the development of ,physic, knowledge and skills of these children through expert professional academicians and team of Doctors for periodical medical checkups and meeting their medical needs.

These deprived children are provided best facilities and knowledge by beginning with a-b-c-d and to meet the needs of these children the Organization have been putting sincere efforts since 1993-1994 to achieve the objects of the organization, mainly providing basic facilities of medical ,nutrition, educational inputs and imparting – spreading education among the deprived and under- privileged children of the society ,in the SLUMS, hence have also established it's own academic, High School in the year 1994 with due recognition of Govt. of Maharashtra , in English Medium, for enabling these children to appear in public examinations for achieving recognized status in the society by passing the examinations conducted by state Education board for their comprehensive development by self standing .

The school is Recognized permanently on Un-aided basis and is not even financially supported under Sarva - Shikha Abhiyan by State Govt. to educate and Rehabilitate these slum children.

One side here are the under-privileged and deprived, slum children and another side **Permanently un-aided school** , that too with all educational inputs for these children is a Herculean task for the management to work in the slum area with very-very limited resources to meet the day to day recurring ,non recurring and administrative expenses as well as educational inputs provided to deprived children along with free education to them as they are helpless to help them selves. Under the above situations indeed it is very difficult assignment for the organization to survive with these children to meet the needs.

The sincere and dedicated efforts of the management along with blessings of few gentlemen and few generous donors , the management continues it's efforts to meet the objects and have been successfully continuing the services for these needy children and thus have been sending the batch for S.S.C. Board Examination conducted by Maharashtra State Education Board and for

last four years have been continuously **achieving 100% result of std X, i. e. S.S.C. Exams held in March 2012 ,March 2013 and 2014 . The organization is also expecting same in the coming year too.**

The results of these children / students (between age group 3 to15 years) through out from K.G./1st to Std. X, have been quite satisfactory during the year. Indeed the comprehensive development of these children by achieving academic results in these many years have been very much satisfactory .

The management had experienced bit relief of financial crunches with the support of Govt. of India to some extent There have been adequate growth in the moral , physical cultural and academic field of these children during this year . The under – privileged and deprived children enrolled with the institution are leading towards glittering future with the support of the dedicated management, few generous donors and Ministry of Woman and Child Development Govt. of India, but Govt. of India have not released the grant for last Five years for approved and continuing project of SNEHA CHILD DEVELOPMENT CENTRE [REHABILITATION CENTRE].

The generous support of some gentlemen and donors as well as support of Govt. of India to the Organization have been easing to fixed the target to enroll more deprived children during the year through continuing process from this slum area for their comprehensive development by rendering services such as ,medical ,nutrition and educational inputs to impart the best academic education with due care of their basic needs for health etc. .[Kindly refer our web site [[www. deprivedchild.org](http://www.deprivedchild.org)] for more details,

For DEPRIVED CHILD! AND YOU

N.P.MISHRA
